Education

Amrita School of Engineering, B.Tech in Computer and Communication Engineering Aug 2023 – May 2027
Chennai, India

- **GPA** : 8.2/10.0
- **Coursework**: Computer Architecture, DSA, DAA, Operating Systems, DBMS, Machine Learning, Data Science.

Experience

Artificial Intelligence Intern – Enterprise Email Intelligence System Feb 2026 – May 2026
Infosys [remote]

- Built Machine Learning-based email classifier for enterprise workflows.
- Processed 10K+ mixed emails for model training.
- Implemented NLP pipeline (tokenization, vectorization).
- Achieved 98.5%+ classification accuracy during testing.

Technical Skills

- **Programming Languages**: Python, C, Java (basics)
- **Web development tools**: JavaScript, CSS, HTML
- **Technologies**: Git, Github, VS code, Adobe Premiere Pro and Figma
- **Certifications**: TCS Information Technology Certification | AWS Cloud Foundations | AWS Cloud Developer (AWS Academy) | Python & SQL (HackerRank)

Projects

Object Categorizer and Waste Manager github.com/OBJ-CAT

- This project improves **waste management** with **machine learning**, achieving **98% precision** in real-time waste segregation. Using **image recognition** and **sensor data**, it classifies waste efficiently.
- **Tools Used**: Python, Raspberry Pi

Autonomous Vehicle Platoon github.com/V-P

- This project enables **autonomous vehicle platooning** using **machine learning**, achieving **95%+ efficiency** in speed, spacing, and turns.
Implemented in **CARLA 0.9.12**, it optimizes traffic flow, reducing delays by **30%**.
- **Tools Used**: Python, CARLA Simulator

Multi-Agent Financial Portfolio Assistant github.com/FPA

- Designed a **6-agent AI architecture** analyzing **19 Asian tech stocks** using market data and portfolio analytics.
- Implemented **RAG (FAISS) with Gemini LLM**, delivering insights via **Streamlit** and voice interface.
- **Tools Used**: Python, FAISS, Gemini API, Streamlit, yFinance

Achievements

1st Prize – Ingenium 5.0 (IoT Hardware-Software Competition): Feb-2026 Tantrotsav, CAMHI, Chennai
Secured first place among 100+ participants at Tantrotsav for developing an integrated IoT-based hardware-software system under competitive time constraints.

Winner – Infinity Gauntlet: Feb-2026 Tantrotsav, Chennai
Won a multi-round technical competition featuring cybersecurity-based decryption and rapid full-stack website development (Time-limited build challenge).

1st Prize – Logical Nexus (IEEE CAS): Oct-2025 IEEE CAS, Chennai
Secured first place in a hardware-centric problem-solving competition organized by IEEE Circuits and Systems Society.
